# A journey to Jeddah and Medina

FLORENTIN SMARANDACHE  
**photos of Saudi Arabia**

Pons

Brussels, 2019

The present album is a collection of photos from my travel to Saudi Arabia in the cities of Jeddah and Medina, in December 2018. The trip was occasioned by the invitation of *King Abdulaziz University* in Jeddah to deliver a presentation at the seminar "History of Neutrophic Set and Logic and their Applications", regarding the evolution and development of neutrosophic set, logic, probability and statistics.

extract

A photograph of a city street scene. On the left, a tall, modern skyscraper with a glass facade stands prominently. To its right, several modern apartment buildings with balconies and large windows are visible. In the foreground, there are palm trees and a paved road. The entire image is framed by a white, torn paper effect.

promenade

A photograph of a city street between two tall, modern buildings. The buildings have a light-colored facade with many windows. In the foreground, a white van is driving away from the camera, and a white bus is visible further down the street. The sky is clear and blue. The text "in between" is overlaid in the center of the image.
