“The Pizza Challenge”

So you want some pizza? Here are 5 possible toppings for your cheese pizza: pepperoni, sausage, mushrooms, green peppers, and onions. Make a list of all the possible combinations of pizza you could order. Use the following letters.

- \( p \) – pepperoni, \( s \) – sausage, \( m \) – mushrooms, \( g \) – green peppers, \( o \) – onions.

Sorry, but you can’t use a topping twice on the same pizza – no double pepperoni.

Try and organize your list in the table below. There are more spaces than you need.
