

# Call for contributions

**Volume III of "Advances and Applications of DSMT for Information Fusion (Collected works)"  
Edited by F. Smarandache, J. Dezert**

**Deadline for submission: June 30th, 2008**

**Contact editors at: [smarand@unm.edu](mailto:smarand@unm.edu) and [jean.dezert@onera.fr](mailto:jean.dezert@onera.fr)**

A third volume on Advances and applications of DSMT for information fusion is planned for publication by Fall 2008. Any contribution on applications and comparison of DSMT with other approaches is very welcome as well as theoretical investigations on DSMT. If you want to contribute to this third forthcoming volume, please directly contact the editors F. Smarandache and J. Dezert. Only 8 pages minimum (one column format) contribution related with the topic will be considered. No limitation on the maximum numbers of pages. Inclusion of color figures is accepted for the final electronic version of the book. The book (paper version) however will be printed by publisher in B/W. LaTeX format is preferred.

Information on DSMT and previous volumes is available at:
