& RSVP TODAY!**

About the Program

The Combined BA/MD Degree Program is a partnership program between the UNM College of Arts & Sciences and the UNM School of Medicine. The Program is designed to help address New Mexico's physician shortage by assembling a class of diverse students who are committed to serving communities across the state.

All students who are a part of the Combined BA/MD Degree Program have a provisional reserved seat at the UNM School of Medicine, as well as access to exceptional student support services to ensure the successful completion of their education.
