

CEO Weekly Brief – 4/5/2019
Dr. James Malm

Enrollment Management Dashboard

I was very excited to receive a customized enrollment management dashboard prototype this week from our institutional research department. According to dashboard designer and Senior Institutional Researcher Brittany Babycos, “UNM-Gallup’s weekly activity report (WAR) dashboard will include internal Banner-housed data as well as six external data indicators. In addition to the main dashboard, 23 underlying pivot tables and charts will allow users to visualize the data in varying levels of detail and in several formats. An updated WAR dashboard will be distributed to UNM-G leadership and published on the IR secure website each week to keep our laser focus on student success, financial soundness and campus climate.”

Having the ability to visualize and drill down into this predictive and analytical information will allow for data-driven decision making, identification of trends and the ability to strategically adjust our direction as needed. You can look forward to accessing the dashboard on the Institutional Research webpage in the very near future.

Budget and Campus Building: Governance Approvals

The UNM Board of Regents Finance and Facilities Committee met in Albuquerque on Tuesday and gave their approval to pass our physical plant building plans update to the full Board of Regents on April 9. Please refer to the [Finance and Facilities webpage](#) for agendas and meeting minutes, and click below for the April 2 documents.

We also received a unanimous “Do Pass” vote for our FY20 budget which will allow for presentation to the full Board of Regents at their April 9 budget summit.

The three members of the Finance and Facilities committee are Doug Brown, Sandra Begay and Robert Schwartz.

Program Advisory Committee Meetings

Both the Medical Laboratory Technology program, under the direction of Corine Gonzales, and Early Multicultural Childhood Education program as led by Lewis Gambil, hosted their advisory committee meetings this week. These committees are incredibly valuable in guaranteeing that we engage with community leaders and experts in each of our career fields to ensure the education we provide to our students meets acceptable levels of quality and relevance by reliable authorities in the accredited programs. Click below to see the meeting agendas.

Medical Laboratory Technology Program
University of New Mexico - Gallup

MLT Advisory Committee Meeting
Friday, April 5th, 2019 at 10:00 AM – 12:00 PM
UNM Gallup Campus

TENTATIVE AGENDA

- I. Welcome/Brunch/Introductions
- II. Approval of Agenda
- III. Approval of previous Advisory Committee Meeting Minutes
- IV. Topics
 - A. Accreditation
 - 1. Self-study Report Review
 - 2. Site Visit Review
 - 3. RCAP Recommendation

Dan Primocic - Dean of Instruction - UNMG
Irene Den Bleyker - Education, Health and Human Services (EHHS) Division Chair
Eae Vargus-Lutz - EHHS Division Administrative Assistant
Kimberly Eparza - Early Childhood Teacher

Local Advisory Board Agenda

I will meet with our Local Advisory Board Chair Ralph Richards next week to construct the agenda for the upcoming board meeting which is scheduled for April 16 at 1:00 p.m. in the executive conference room. Please refer to the [local advisory board webpage](#) for all agendas and board packets. This month's meeting will be different than most as it will be preceded by a board workshop to drill down deeply into our UNM Foundation

managed funds such as endowed and non-endowed scholarship accounts, and will include a presentation on our financial aid processes. As always, the workshop and meeting are open to the public as are all board proceedings. Please join us if you are able to attend.

Walk Out on Work

With much gusto and enthusiasm, UNM-Gallup employees (and some students!) walked out on work yesterday in support of the university-wide initiative aimed at drawing attention to cardiovascular wellness and the health benefits of moving. Many thanks to our wellness ambassadors Rose Adakai and Rae Ann Vargas-Ruiz for organizing us to hit the trail yesterday afternoon. I hope this will be the first of many walking breaks for our campus, especially now that spring weather is here.

Open Office Hours

The UNM-Gallup leadership team welcomed Chris Chavez, Lecturer II in construction technology, to Open Office Hours today. Chris shared information as to how the UNM-Valencia campus is using solar energy to power parts of their campus and presented information as to how UNM-Gallup might do the same. We greatly appreciated the conversation and are investigating possible options for our campus. Please refer to the [KRQE video link](#) regarding solar initiatives at the UNM-V campus.

Next week's Open Office Hours will be on Friday, April 12 at 9:00 a.m. in the geology lab, Calvin Hall Center, Room 274. Please visit the [Open Office Hours registration site](#) and sign up to share ideas and suggestions.
