

Associate of Science in Science (60 credits)

The Associate of Science Degree in Science provides a broad background of coursework and preparation for the student who plans to transfer to a four-year institution to pursue a baccalaureate degree in science, engineering, or a health related field. Because of variations in academic preparation and career aspirations, each student in the AS in Science program is required to meet with an Advisor to develop an individualized program. The program outlines the sequence of required courses and electives the student will take.

GENERAL EDUCATION REQUIREMENTS (31):	Credits	Grade	Semester
Communications (6): For required courses, refer to the General Education Curriculum	3 3
